International Women's Day Celebrations Held In Kalomo

Aspiring Kalomo Town Council Chairperson, Magret Nchimunya, has urged parents and guardians in Kalomo District to ensure that children remain in school and fully benefit from the government's free education policy.

Speaking during the International Women's Day celebrations held at Nazilongo Primary School on 09 March 2026, Magret Nchimunya warned against early marriages and teenage pregnancies, stating that such practices put the lives of young girls at risk and negatively affect their education.

She emphasized the importance of guiding children not only in their academic work but also in their behavior, including the way they dress and speak.

Magret Nchimunya also congratulated the women who attended the event, saying their presence demonstrated unity and commitment to community development.

She further encouraged women to support each other in leadership roles, noting that positions such as Council Chairperson, Member of Parliament, and other public offices are open to women who are ready to serve their communities.

Magret Nchimunya added that if elected as Council Chairperson, she will prioritize the welfare of women by supporting cooperatives, clubs, and societies to promote grassroots development in the district.
